

From Fine Arts to Wearable Designs

Starting at just eight years old, I immersed myself in art, by attending the Boston Museum of Fine Arts School twice a week. My passion led me to explore various mediums, from oil painting to working on my pottery wheel at home at such a young age. I learned to sew my own clothes starting at age 11. As I grew, my love for art expanded into professional photography, proudly displaying my work on the walls of Mass General Hospital in Boston. What a privilege to see my art appreciated in such a significant place! I also was inspired to become a Certified Therapeutic Art Life Coach to include a balance of my art to help others achieve theirs. This journey ultimately inspired me to create ART FROM THE HEART DESIGNS by JEANNE MARIE DAMICO, where I blend my artistic talents into unique wearable art.

Diverse Artistic Pursuits

Art is deeply woven into every aspect of my life. Over the years, I sought to experience as many art forms such as a Licensed Tattoo Artist and a Henna Artist. You can see some of that experience reflected in my designs. My journey also led me to the fashion world, where I designed Men's True Bespoke Suits in Boston's Financial District and worked as a Bridal Consultant. Each of these experiences enriched my artistic journey as a Designer.

New Frontiers

I am thrilled to embrace a new artistic challenge with abstract art, a realm that has always intrigued me. I believe in facing challenges head-on, as they often reveal our greatest strengths. This adventurous spirit brought me to the creation of wearable art. Today, I showcase my art in various forms, including athletic wear, chiffon kimonos, bathing suits, dresses, men's clothing, handbags, shoes, and even Italian leather shoes made in Italy.

Inclusive Fashion

My designs cater to every body shape, wholeheartedly embracing this philosophy. My collections are available in sizes ranging from XS to 3XL, with some pieces extending up to 6XL. Additionally, I am proud to offer athletic wear made from recycled plastic bottles, which feel incredibly soft and luxurious.

Inspiring Creativity

Creating wearable art has been a dream come true for me as both an artist and a Certified Therapeutic Art Life Coach. My goal is to create fun and creative fashion for all ages. ART FROM THE HEART DESIGNS BY JEANNE MARIE DAMICO allows me to share my passion for art in a way that is accessible and enjoyable for everyone. Through my wearable art, I aim to inspire others to be bold and unique and embrace their individuality. Feel free to contact me with any questions or information about my designs. I'd love to hear from you.
